ELT and ELL materials that are comprehensive for students who are not native speakers of English are essential in helping them develop the ability to achieve grade-level proficiency in all subject areas. Walter's experiences as an ELT teacher both in the United States and overseas, and his impressive network of ELT talent, will be invaluable in helping educational publishers develop content that provides students with the necessary tools to understand the complicated nuances of the English language."

"I too, am very enthusiastic about working with Westchester. In our global world today, the medium of teaching and learning is English and other worldwide languages. It is my hope to help develop content that engrosses attention, improves skills, and addresses pedagogical needs that address both the teacher's and learner's perspectives," commented Walter Henderson, Jr.
